COMPANY PROFILE

Antique Paints is located at Ahmedabad. Company was started in 2004 and on 29th March 2015, we had shifted out plant from Odhav to present ultra modern premises, which spreads to 8,000 Sq. Mtrs. area and it is in the midst of green environment. Our present production capacity per year is 4,500 Ton and Per Year our production is 1,500 Ton.

The firm is founded by Technocraft Mr. Digant Patel Who has very wide experience in the manufacturing and marketing of all products listed in this catalogue.

We have been growing rapidly due to quality of our products and better services to our valued customers. The credit of the rapid progress is largely attributed to the most valued customers for patronizing our various products, hard work done by all the employees and on unprecedented support extended by well wishers.

We are committed to deliver customers consistent quality products and an assurance of the quality for the entire range of the products. The norms of Quality Assurance are being strictly followed without any compromise and deviation from the standards. We have laid down stringent specification and procedures for the purchase of raw materials, processing parameters and specification of the finished goods testing in detail.

We have good facilities to develop and standardize the products and to suit customer for their requirements and specifications.
